

THE ASSOCIATION OF
HEALTH INSTITUTIONS
OF SLOVENIA

THERE ARE 93 OF US IN TOTAL

We are a professional organisation of public health institutions and other legal entities that provide medical care on the basis of a concession. **Our main objective** is to encourage networking and collaboration among all members, to represent members' interests, and to provide necessary information and consulting services, thus ensuring better conditions for our members' activities.

On 1 November 2016 we reached the milestone of having 100 % of the public health institutions in Slovenia enrolled as members of our Association.

WHAT WE DO

The Association of Health Institutions of Slovenia is in charge of the following tasks:

- the **professional** and **autonomous functioning** of health institutions.

WE BELIEVE IN

A **compassionate, accessible**, and **fair** health care system.

WE PERSEVERE

Because of our **knowledge, expertise, experience, continuity**, interpersonal contacts, information flow, and challenges.

OUR MISSION

We see our mission in keeping the track of and **developing management profession** and good practices, and in creating conditions for **professional and responsible** management in order to provide high-quality health care services.

OUR VISION

To create conditions for the **modern management** of health institutions by means of collaboration, networking, and exchanging good practices.

HISTORY

In 2013 we celebrated the **50th anniversary** of our establishment (the predecessor of the Association, the Union of Health Institutions, was established on 9 December 1963).

Various educational events organised by our Association (seminars, trainings, conferences) are annually attended by more than **1000** participants working in health institutions.

We work with our domestic and international counterparts, and we are also a member of the European Hospital and Healthcare Federation (**HOPE**).

Once per month we publish the **Novis** magazine to provide a flow of information and encourage the development of the management profession. Once per year we also publish the so called **Pink book** (contains data and performance indicators in public health institutions for the current year).
